

LIBERO COPPER CLOSES PRIVATE PLACEMENT

July 12, 2019 – Vancouver, BC- Libero Copper Corporation (TSX-V: LBC, OTCQB: LBCMF) announces that the second tranche of the non-brokered private placement announced on May 28, 2019 has closed and consists of the final 1,000,000 Units (“**Unit**”) at a price of C\$0.10 per Unit (the “**NFT Unit Offering**”) for gross proceeds of C\$100,000. Each Unit consists of one Common Share and one common share purchase Warrant (“**Warrant**”). Each Warrant entitles the holder to acquire one Common Share at a price of C\$0.15 until June 7, 2021.

10,000,000 Units at a price of C\$0.15 per Unit for aggregate gross proceeds of up to C\$1,500,000 (the “**Super FT Unit Offering**”) announced on May 28, 2019 is expected to close within 30 days bringing the total gross proceeds of the Offering to C\$2,700,000.

Common Shares issued under the Super FT Offering qualify as ‘flow through shares’ (the “**Flow Through Shares**”). The gross proceeds from the Super FT Offering will be used to incur ‘Canadian exploration expenses’ that will qualify as ‘flow through mining expenditures’ as those terms are defined in the *Income Tax Act* which will be renounced to the initial purchaser of the Flow Through Shares.

The net proceeds of the Offering will be used for exploration at the Big Red project and general working capital purposes. The Units issued in the Offering are subject to a statutory hold period expiring on November 13, 2019.

About Libero Copper

Libero Copper is acquiring high-quality copper deposits with significant resources but without any fatal flaws or significant holding costs and exceptional copper exploration properties in the Americas. These assets are being advanced and de-risked by a seasoned team to minimize dilution and maximize shareholder value. The portfolio currently includes the Big Red exploration project in Canada, the Tomichi deposit in the United States and the Mocoa deposit in Colombia which both contain large inferred mineral resources. In total the properties contain 7.9 billion pounds of copper and 1.1 billion pounds of molybdenum.
